The difficulties in the hospitch have been made public many times in the action taken in regard to a student nurse, Miss Smith, who had to take legal proceedings to get her diploma. She was necessed of circulating stories reflecting upon Miss Betts, then the assistant superintendent of the training school, and Dr. H. M. Lewis, of the hospital staff.

GRAVE CHARGES AGAINST A HUSBAND. HIS WIFE SAYS HE TRIED TO POISON HER AND THEIR CHILD WITH PARIS GREEN AND SULPHUR FROM MATCHES.

Mrs. Anne Minischfski, twenty-three years old, the wife of a truck-driver, living at No. 134 Elleryst., stepped up before the bar in the Lee-ave Police Court yesterday when her husband was arraigned on a charge of intoxication, and preferred a charge of assault against him. Mrs. Minischfski told the magistrate that her husband eturned from his work on Monday night, and after beating her, tried to poison her and their three-months-old child. The woman carried the three-menths-old child. The woman carrier in her arms. She was a widow when she married Minischfekl, lifteen months ago, with a child three years old. Soon after their marriage, her husband mad taken a violent dislike to the child and had begun to treat her with great crueity. Often, she said, he had held the child down by his feet. At other times, he wome hold the girl out of the front window by the feet and threaten to let ther drop to the street. Almost daily, she said, the child received a heating, until her body was black and blue. The child was finally taken charge of by her uncle, with whom she now lived.

While she was engaged in preparing him a cup of coffee Monday night. Mrs. Minischfekl says her husband took a package of Paris green from his pocket and put it on the table. He then soaked the guiphur of a box of matches in water, and, mixing the liquid with the Paris green, had tried to force her and the child to drink it. Because she had refused, he had beaten her. Her screams had attracted some of the neighbors, who called in a police officer. They had arrested him on a charge of intoxication.

Minischfekl said he had no recollection of what thad happened, Justice Goetting imposed a fine on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of intoxication, and held him for trial on the charge of infant in her arms. BRIDGE TERMINAL STATION PLANS. A conference was held yesterday at the Mayor's

the Bridge president; Mr. Howell, the Bridge trus Mr. Henriques and the Bridge superintendent, Mr. Martin, regarding the proposed plan for a new terminal station of the Bridge at Tillary-st., to trustees, of whom the Mayor and Controller are two. Action was deferred last week out of deference to their opinions. After the conference the Maxor said: "I am carefully considering the important question of a proper terminal station for the Bridge. I must admit that I like the plans submitted for the station at Tiliary-st., and the structure designed to be erected there. I think it is in the line of public improvement and public spirit, and will do much to beautify that part of the city and settle permanently the question of property in that neighborhood. The question of property in that neighborhood. The question of cost, however, causes me to waver. The trustees claim that they can carry out this plan and pay for it from the receipts of the Bridge, and by certificates of indebtedness based upon the receipts. But this would cause the loss to the city of \$400,000 a year, now received from the Bridge, to pay interest on the bonds for its cost. This sum would have to be added to the tax levy, and while it would add only I mill to the tax rate, it would mean a higher tax rate, and I take my election to mean that the citizens desire a lower rate of taxation. But I believe that if the matter is properly presented to the people by the press they would favor the improvement, even if we had to add \$100,000 to the tax levy."

DR. TALMAGE OPPOSED TO SELLING SIT-TINGS.

Dr. Talmage has announced his opposition to the proposed plan of selling single sittings in the Tabernacle for 10 cents a Sunday, after carefully considering the proposition as presented by the trustech. It was devised to aid the effort to better the church finances after the floating debt was paid off on the basis of 23 cents on a dollar last year. It. Talmage said yesterday: "The trustees compilment me by thinking that I could conduct services with admission tickets, but they are mistaken. Such an arrangement would offend the whole earth. Such things are done in England, but they would never do in America. Tickets will do for lectures, but not for sermons, and could not be used under my ministry."

Leonard Moody, one of the trustees, said: "Everything must have a financial basis. Churches cannot run on nothing. The revenue from the pew rents in the Tabernacle and the collections barely pay the running expenses. Dr. Talmage has had no salary for several years. All the trustees and many prominent members favor charging visitors a fee, but Dr. Talmage opposes it." Russell Sage has a mortgage for \$150,000 on the church. teen. PLAN TO UNITE STREET RAILROADS. Another plan of union of the street railroad inresented by the Brooklyn Heights Company, controlling the Brooklyn City road, and what are known as the Brooklyn lines, whose management was recently merged into the Brooklyn, Queens County and Suburban Company, has been practically agreed upon since the previous negotiations were broken off last week. The new plan involved the purchase of \$2,00,009 in bonds of the lattic company by the former as a guarantee fund. The details of the consolidation of the two companies are not yet fully settled, but it is believed that there will be no further hitch.
